"Modern marketing requires more than just media planning and buying. With IDFree our teams can work fluidly on campaigns with global clients & colleagues and gain valuable insight through the pre-campaign reports. Digital planning and targeting will be different without cookies, and the IDFree tool is one of the post-cookie tools we at Mindshare are looking into. The ability to target the same audience across multiple platforms from video, social, apps and display is valuable to our clients, and to us as modern marketers."
